Index to Volume 171

Aggarwal S, *see* Tandon CD *et al.*
Akiyama T, *see* Dobashi Y *et al.*
Al-Ghoul A, *see* Shoker AS *et al.*
Ali AH, *see* Varma SD *et al.*

Bhutanib LK, *see* Khare S *et al.*
Biswas S, *see* Ray S *et al.*
Burns K, Opas M, Michalak M: Calreticulin inhibits glucocorticoid – but not cAMP - sensitive expression of tyrosine aminotransferase gene in cultured McA-RH7777 hepatocytes 37–43

Camps M, *see* Viñals F *et al.*
Carrión A, *see* Zumino AP *et al.*
Chakraborty AK, *see* Sadhukhan PK *et al.*
Chaurasia P, *see* Thakur MK

Dasgupta A, *see* Sadhukhan PK *et al.*
Deneer HG, *see* Shoker AS *et al.*
Devamanoharan PS, *see* Varma SD *et al.*
Dobashi Y, Kudho T, Ishidate T, Shoji M, Toyoshima K, Akiyama: The Wilms tumor protein is persistently associated with the nuclear matrix throughout the cell cycle 121–126

Forouzandeh M, *see* Tandon CD *et al.*

Georges FF, *see* Shoker AS *et al.*

Hanahisa Y, Yamaguchi M: Increase in calcium content and Ca^{2+}-ATPase activity in the brain of fasted rats: Comparison with different agents 127–132
Hensel M, *see* Volk T *et al.*

Ishidate T, *see* Dobashi Y *et al.*

Jamil H, *see* Shoker AS *et al.*
Jethi RK, *see* Tandon CD *et al.*

Kamboj KK, *see* Srivastava P *et al.*
Khare S, Bhutanib LK, Rao DN: Quantitative assessment of tuftsin receptor expression and second messenger during *in vitro* differentiation of peripheral blood derived monocytes of leprosy patients 1–10
Kox WJ, *see* Volk T *et al.*
Kudoh T, *see* Dobashi *et al.*
Kumar VL, Majumder PK, Kumar V: Androgen deprivation causes up-regulation of androgen receptor transcript in the rat prostate 133–138
Kumar V, *see* Kumar VL *et al.*

Majumder HK, *see* Sadhukhan PK *et al.*
Majumder PK, *see* Kumar VL *et al.*
Michalak M, *see* Burns K *et al.*

Murabit MA, *see* Shoker AS *et al.*

Okasha K, *see* Shoker AS *et al.*
Opas M, *see* Burns K *et al.*

Palacín M, *see* Viñals F *et al.*
Pandey VC, *see* Srivastava P *et al.*
Prasad K, *see* Shoker AS *et al.*
Puntoni F, Villa-Moruzzi E: Phosphorylation of protein Phosphatase-1 isoforms by cdc2-cyclin B *in vitro* 115–120

Qualtiere LF, *see* Shoker AS *et al.*

Rao DN, *see* Khare S *et al.*
Rastogi AK, *see* Srivastava P *et al.*
Ray M, *see* Ray S *et al.*
Ray S, Biswas S, Ray M: Similar nature of inhibition of mitochondrial respiration of heart tissue and malignant cells by methylglyoxal. A vital clue to understand the biochemical basis of malignancy 95–103
Risler NR, *see* Zumino AP *et al.*
Ruiz Petrich E, *see* Zumino AP *et al.*

Sadhukhan PK, Chakraborty AK, Dasgupta A, Majumder HK: Chromatographic separation of DNA dependent RNA polymerases and molecular properties of RNA polymerase II from a *Leishmania* Spp 105–114
Schanne OF, *see* Zumino AP *et al.*
Sharma GD, *see* Srivastava P *et al.*
Shoji M, *see* Dobashi Y *et al.*
Shoker AS, Murabit MA, Georges FF, Qualtiere LF, Deneer HG, Prasad K: Inhibition of human lymphocyte function by organic solvents 49–58
Shoker AS, Yang H, Murabit MA, Jamil H, Al-Ghoul A, Okasha, K: Analysis of the *in vitro* effect of exogenous nitric oxide on human lymphocytes 75–83
Srivastava P, Sharma GD, Kamboj KK, Rastogi AK, Pandey VC: Heme metabolism in promastigotes of *Leishmania donovani* 65–68
Sultan AMN: The effects of anaplerotic substrates on D-3-hydroxybutyrate metabolism in the heart 59–64

Tandon CD, Forouzandeh M, Aggarwal S, Jethi RK: Inhibitors of *in vitro* mineralization from flexor tendons of rabbits and their role in biological mineralization 29–35
Testar X, *see* Viñals F *et al.*
Thakur MK, Chaurasia P: Nuclease susceptibility of the rat liver satellite DNA-containing chromatin decreases with age 45–48
Toyoshima K, *see* Dobashi Y *et al.*

Varma SD, Devamanoharan PS, Ali AH: Formation of advanced glycation end (AGE) products in diabetes: Prevention by pyruvate and α-keto glutarate 23–28
Villa-Moruzzi E, *see* Puntoni F
Viñals F, Camps M, Testar X, Palacín M, Zorvano A: Effect of cations on the tyrosine kinase activity of the insulin receptor: Inhibition by fluoride is magnesium dependent 69–73
Volk T., Hensel M, Kox WJ: Transient Ca^{2+} changes in endothelial cells induced by low doses of reactive oxygen species: Role of hydrogen peroxide 11–21

Yamaguchi M, *see* Hanahisa Y
Yang H, *see* Shoker AS *et al.*

Zorvano A, *see* Viñals F *et al.*

Zumino AP, Risler NR, Schanne OF, Ruiz Petrich E, Carrión A: Magnesium: Effects on reperfusion arrhythmias and membrane potential in isolated rat hearts 85–93
